Beyond Education

माता पिता गुरु दैवम्

From the Chairman's desk

The journey of Spring Board began in 2013 with the sole aim to assure advanced and quality education to the common man's reach. From 1 pre-school in 2013, Spring Board International Pre-school has grown to 60 pre-schools just within 3 years!

Considering the everlasting faith in us and the increasing demand from existing parents to start a full time school till the 12th grade, we are extremely happy to announce Spring Board Academy.

Spring Board is the one stop destination for all parents who look for interactive learning at the tender age. I personally don't believe that good grades alone define one's talent and character. I believe that discipline and tradition also carry the same amount of significance. Ultimately, what is the use of top grades when our child isn't disciplined?

Here, at Spring Board we work towards the child recognizing his/her innate abilities, likes and dislikes with the best of facilities and practice. Because, once they start doing what they love, they will enjoy and embrace the learning process. It's really amazing and interesting how creative children get once allowed to do what they want to.

Spring Board has a very strong team of academicians working everyday to make learning fun and interactive. We research the practices around the world and adapt it to our learning environment. Every teacher recruited in our Schools is regularly trained and upgraded for our exclusive method of teaching.

Leaving footprints on the sands of time, Spring Board Academy takes pride in launching 6 schools as a beginning with many more to come in the future.

I personally assure the best for you and your child.

Vishnu Manchu
Founder/Chairman
Spring Board

Spring Board Academy aims to bring the best out of a child by emphasizing on Discipline, Education, Tradition and Ethics. Encouraging children to a wide range of activities for him/her to discover his/her talents and interests. Nurturing future leaders equipped with extraordinary education and civil skills.

Vision

To make every child ready and advanced for the future and bring about in him/her

- A confident person
- A self directed learner
- An active contributor
- A responsible citizen

Mission

Spring Board Academy aims to provide

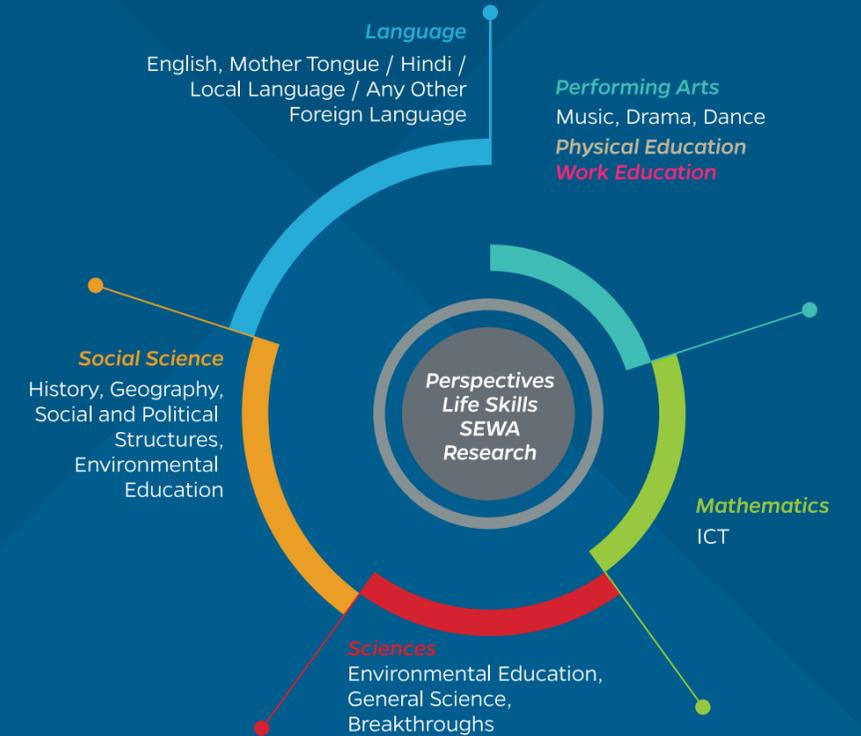

- A sensitive consideration to a multi-ethnic mix of children
- A warm and caring environment through play and formal work
- An extension of home and faith
- A positive approach towards life
- Spirituality and worship in a non-denominational setting

Our Curriculum

Spring Board Academy teaches the SCERT / NCERT Curriculum that encourages the child to think in a divergent way. Teaching will not just be plain education but also morals and ethics, preparing your child for the life outside of the school. The curriculum is designed to meet the various stages of child development and learning.

Teacher Training Program

Systematic in-service training, over and above teachers' formal education and experience, is a significant facet of quality education. It gives an opportunity to improve and upgrade the teaching abilities of the faculty. At Spring Board Academy we conduct orientation sessions for the teachers every month and a workshop once in 3 months.
