Principal's Message

Dear parents and students,

"The function of education is to teach one to think intensively and to think critically. Intelligence plus character- that is the goal of true education."

- Martin Luther king, Jr.

Spring Board Academy is a learning community that focuses on increased student achievement by maintaining high expectations, modeling integrity and good citizenship and promoting out of the box learning in a climate of shared responsibility. Our primary responsibility is offering all students the educational opportunities that will maximize their potential.

Today's world demands critical thinking and we achieve this by a well-rounded education, which includes a unique combination of rigorous academic standards and achievement in an inviting school culture.

Independence Day Celebration

*“Freedom in the mind,
Faith in the words....
Pride in our souls.....”*

We celebrated 71st Independence Day on 15th August, 2017 with great patriotic fervor and enthusiasm. The celebration began with a prayer, followed by unfurling of the National Flag by the Principal. All in unison sang the national anthem. Principal addressed the gathering, followed by some inspirational speeches delivered by the students and the teachers. The cultural program began with patriotic songs and dance by the students. The formation of human pyramid by the student was an attraction for the day.

It indeed was a day of joy, a day to love and respect our country.

Field Trip

A field trip to Botanical Garden was organized on 30th August, 2017 for children to create a sense of ownership, care and responsibility towards the environment. Here, the children of all age groups explored and discovered the natural world and also learnt about medicinal, ornamental, aquatic, desert & bonsai plants, timber trees, fruits and adaptation in different plants in different biomes.

Learning outside the classroom was great fun

Talent Show

A Talent Show was organized on various activities such as singing, dancing, essay writing, storytelling, fancy dress competition, recitation etc. Our little geniuses actively participated in the talent show, gave their best and made the event a grand success.

On this day, teachers and students together brought a fun loving environment. Participating in this event gave the students a chance to showcase their talents. It also provided character building lessons during try out, practice and performance. It was a wonderful team building experience for all the age groups.

Students' Corner

My school is a place where we learn many things and it is the best school and beautiful place. The principal and the teachers are approachable and they make us to understand the things very easily. We have many activities at school. The day starts with a prayer.

We celebrate all the festivals at school such as Independence Day, Janmashtami, Ganesh Chaturthi etc. I enjoy each and every day in the school with my friends. Apart from studies, we have sports too. There is a big playground for us to play. Our classrooms are very clean. My teachers teach us with great care and attention. I am proud of my school. I love and respect my school.

Students' Corner

My school is the boarding of heavenly smiles, flourished in the stretched meadows when the spring blooms bidding farewell to the shivering winters... My school is a temple of learning with the values and ethics inherited in and where the tiny minds nurtured into the realized dreams of many parents.... Hand in hand with all our hands here echoed the claps of joy everywhere.... This is our school where we rush to get in and it makes us really sad to go home quick...

Lots of love showered on us by our beloved teachers makes the learning a play of joy and a wonderful experience we cherish ever... Long live Spring Board in our hearts ever and ever....

Sai Sri Lasya M
Grade III

Thank you
