Principal's Message

Dear parents and students,

Learn from yesterday, live for today, hope for tomorrow. The important thing is not to stop questioning. -- Albert Einstein

I personally believe that learning is a continuous process and should be engaging for staff and students. Our motto is to provide students with a challenging educational environment focusing on integrated curriculum and variety extracurricular activities to meet students' individual needs.

At SBA Miyapur, we value each and every student's unique learning journey. Daily instruction is enhanced with well-planned field trips and hands-on activities. At our school, we support children by preparing them for their life as contributing citizens. This involves many aspects, but the most influential is to guide them in developing empathy, cooperation, and strategies to resolve conflicts with others.

I take this opportunity to thank all our parents for their enormous support and seek the same in all our future endeavors.

Principal

Diwali Celebrations

As a part of Diwali celebrations, all children of the grades V to VII decorated the corridors and classrooms with lanterns and celebrated Diwali with great fanfare, devotion and excitement. The skits performed by the students mesmerized the audience. The graceful action of the students, highlighting NARAKASURA VADHA was spellbinding. The traditional values and the importance of the festival were inculcated through various activities. The students also wrote slogans to sensitize their friends about the pollution caused by firecrackers.

Students performing a skit

Dussehra

Dussehra was celebrated in SBA with full fervor. The ceremonial burning of the Ravana effigy symbolized the burning of all vices within a person, believing in the triumph of good over evil. The students performed a skit in which life history of lord Rama was depicted. Colorful attire worn by the dancers was eye-catching. In the morning assembly, students spoke about the significance of the festival and how it is celebrated across the country.

Children showcasing their talent

Children's Day

Children's day was a fabulous event at the campus. Students participated in Salad Making competition and the campus was buzzing with excitement and joy as the beautifully dressed children participated in various activities organized. Primary children were told the importance of this day and songs and dances were also performed.

Graceful movements rocked the stage.

Christmas

Christmas is a time to give and forgive. Students celebrated Christmas with grandeur. In the Christmas play, they depicted the birth of Jesus Christ, which was a beautiful experience.

Students were explained the importance of the Christmas tree and Star, and how they symbolize love and peace. The Christmas carols filled the air with festivity.

Republic Day Celebration

India's 69th Republic Day was celebrated with great reverence in SBA. The day began with a prayer followed by flag hoisting by the incharge Principal.

This was accompanied by the Flag Song, our National Anthem and the pledge. Incharge principal spoke eloquently about our diverse Nation and the relevance of the Constitution and the Preamble. This was followed by speeches in Hindi and English and patriotic songs.

All ears to the address

Science Fair

The Science Fair held on 31st January was a great success. A few among the models that were displayed were Rain Water Harvesting, Plant Life, Water Alarm, Bermuda Triangle, Earth Quake, Face of Moon, Ozone Layer, Balanced Diet etc.

The presentation of the Water Alarm and its uses very much suited to the latest scenario. The model of Volcanic Eruption was the talk of the fair.

A few students exhibited the working models of Kidneys and Water Cycle, which drew attention of the visitors. Life Cycle of Butterfly, Aqua Phonics, and Chocolate Vending Machine were the other attractions of the fair.

Pongal Celebrations

Pongal was celebrated at SBA Miyapur on 11th January, 2018 with pomp and gaiety. Students were in their traditional attire. They gathered on the ground floor for the celebration. Students performed a special traditional dance that received great applaud from all. Teachers while addressing the students, spoke on the tradition and encouraged the students to make colorful kites and fly them.

Students' Corner

I am very happy at school since it gives me many opportunities to express myself. My teacher allows us to ask more questions and speak more in the class when we have discussions after the end of each lesson. Everything at our school happens in interactive mode. Especially, the seminars that we present at the end of each lesson make us understand more and help us to apply in our daily lives rather than limiting it to only passive knowledge.

I love my school because it is a lot of fun being at school. That is the reason why I don't want to be absent to school even a single day.

**Kusuma Abhinav,
Grade IV**

Thank you
