A WAY TO GO –THEME SHOW

Introducing transport theme to the children helps them learn about different sorts of transport. Our tiny tots of pre-primary wing were explained about the theme show on transport. We pre-assessed their knowledge about the road transport and took them further by discussing what are the different elements and vehicles seen on the road. Children were shown the models of various means of transport. The new vocabulary related to the transport was introduced to them. The theme show helped the children understand the road safety rules, speed breakers, traffic lights and zebra crossing.

Children Observing the Theme Show

FIELD TRIP

Students of spring board visited Priyadarshini Park as part of their field trip. Field trips are an exciting way for children to immerse themselves in education along with fun. The field trip benefitted to leave a positive and lasting impact on children about the way world works.

Kids having fun during the Field Trip

GO-GREEN ACTIVITY

Go-Green activity was a great way for students of spring board to showcase their environmental education, and engage the whole school community in making a difference. The best activities offered opportunities both to teach about an issue and also make a tangible impact on environment. Children were eager to plant the saplings in the school campus and it was a great way to honor the MotherEarth.

ANNUAL SPORTS DAY

Annual Sports Day was celebrated with great enthusiasm on February 3, 2018. The school campus was overflowing with zeal, passion and excitement. The students displayed a wide array of energetic and bouncy sports events ranging from the Running race, Yoga, Hopping, Musical chairs, Lemon and spoon, and Ball in the circle. They mesmerized the audience with their energetic performances. Students and all the teachers were present to support the sportive spirit of the students. The Sports Day ended with students singing the National Anthem.

Prize Distribution Ceremony

NATIONAL SCIENCE DAY

Students from Primary wing took part in National Science Day in school campus on February 28, 2018. The objective of observation of National Science Day is to spread the message among the students about the importance and application of Science. The event helped the students in improving their scientific approach by analyzing different science models presented by them.

INTERNATIONAL WOMEN'S DAY CELEBRATION

International Women's Day is a global day celebrating the social, economic, cultural and political achievements of women. The event helped in throwing light on the achievements of a few inspirational women who proved that gender is not a barrier in accomplishing the dreams. The teachers and the students have conducted a few games, distributed sweets and roses to the women in the school.

Felicitation to the Women by the Kids

Thank you
